PEEK

Looks like they're ready over there, too.

WAVE

WAVE

PEEK

Okay.

Then I'll close the glyph.

Got it.

PUFF

PUFF

PUFF

ALL RIGHT, IT'S BEGUN!

Now we just wait.

PUFF

PUFF

PUFF

Several hours earlier...

I wonder if this strategy is really going to work...

IT'S TO MAKE TETIA'S DREAM COME TRUE!

YEAH!

So, in other words, your strategy is...

...but it's warm and cozy inside Tetia's clouds, right?

HE HE HE...

This place is cold and uncomfortable...

ZZZooo

THEN MAYBE IT WILL GET LAZY, SETTLE DOWN AND IGNORE US...

SO IF WE MAKE THE DRAGON A GIANT FUTON OF CLOUDS,

Honestly...

You seriously think you can pull it off using that magic?

It's true that the magic power of futons is so great that even the most powerful witch is no match for them...

RIGHT?!

GULP...

I'm not making fun of your dream.

HOW CAN YOU TALK ABOUT MY DREAM LIKE THAT?!

OH, YOU'RE TERRIBLE, AGETE!

WAVE

WAVE

WAVE

WAVE

WAVE

I think it's worth trying!

And...

I'm just saying there's a right time and place for all magic.

then nobody will have to get hurt.

Us, or the dragon.

...if we do it right,

YEAH! IT SOUNDED LIKE SHE ALREADY HAD SOME GREAT IDEAS!

URGH...

PLUS, IF WE CAN GET AGETE TO HELP US OUT, THE SPELL WILL PROBABLY BE EVEN MORE POLISHED!

URGH...

You're the best one at drawing here!

Please! Lend us your strength!

Well,

It's not like I don't, but...

IT'S NOT LIKE I HAVE A CHOICE!

WOO HOO!!

all right, fine.

Ah...

AND I WANT THEM TO BE ALL SOFT AND FLUFFY, LIKE A BED.

YEP!

Tetia wants to ride on top of these clouds.

First, let's get our goals straight.

Something that'll hold together even if a dragon were to ride it...

that doesn't have a fixed shape...

Something we have or can find here

Something soft and fluffy like clouds that you won't just fall through...

You're right!

We can use that wall-breaker magic to smash walls and the floor to make really fine sand!

...What about sand?

Straw

Snow

Cotton

Dry leaves

Bird feathers

Dirt

Water

Cloth

The more keystone marks we draw for the wall-breaker spell, the finer the dust we'll get.

And the smaller the glyph, the better.

I see, Agreat.

Agreat...

AGETE, THAT'S GREAT! THAT'S AGREAT!

A SOFT SANDY BEACH IS A COMFY AND FLUFFY PLACE TO SLEEP TOO!

This is Riche's specialty!

WOW! SO FAST!

FWSH

You want small glyphs? Just leave it to me.

ROGER THAT!

What can I do...?

and I'll find a magic that can envelope it so it won't collapse.

Tetia, you figure out what magic we can use to gather the sand together in the center without making it too firm,

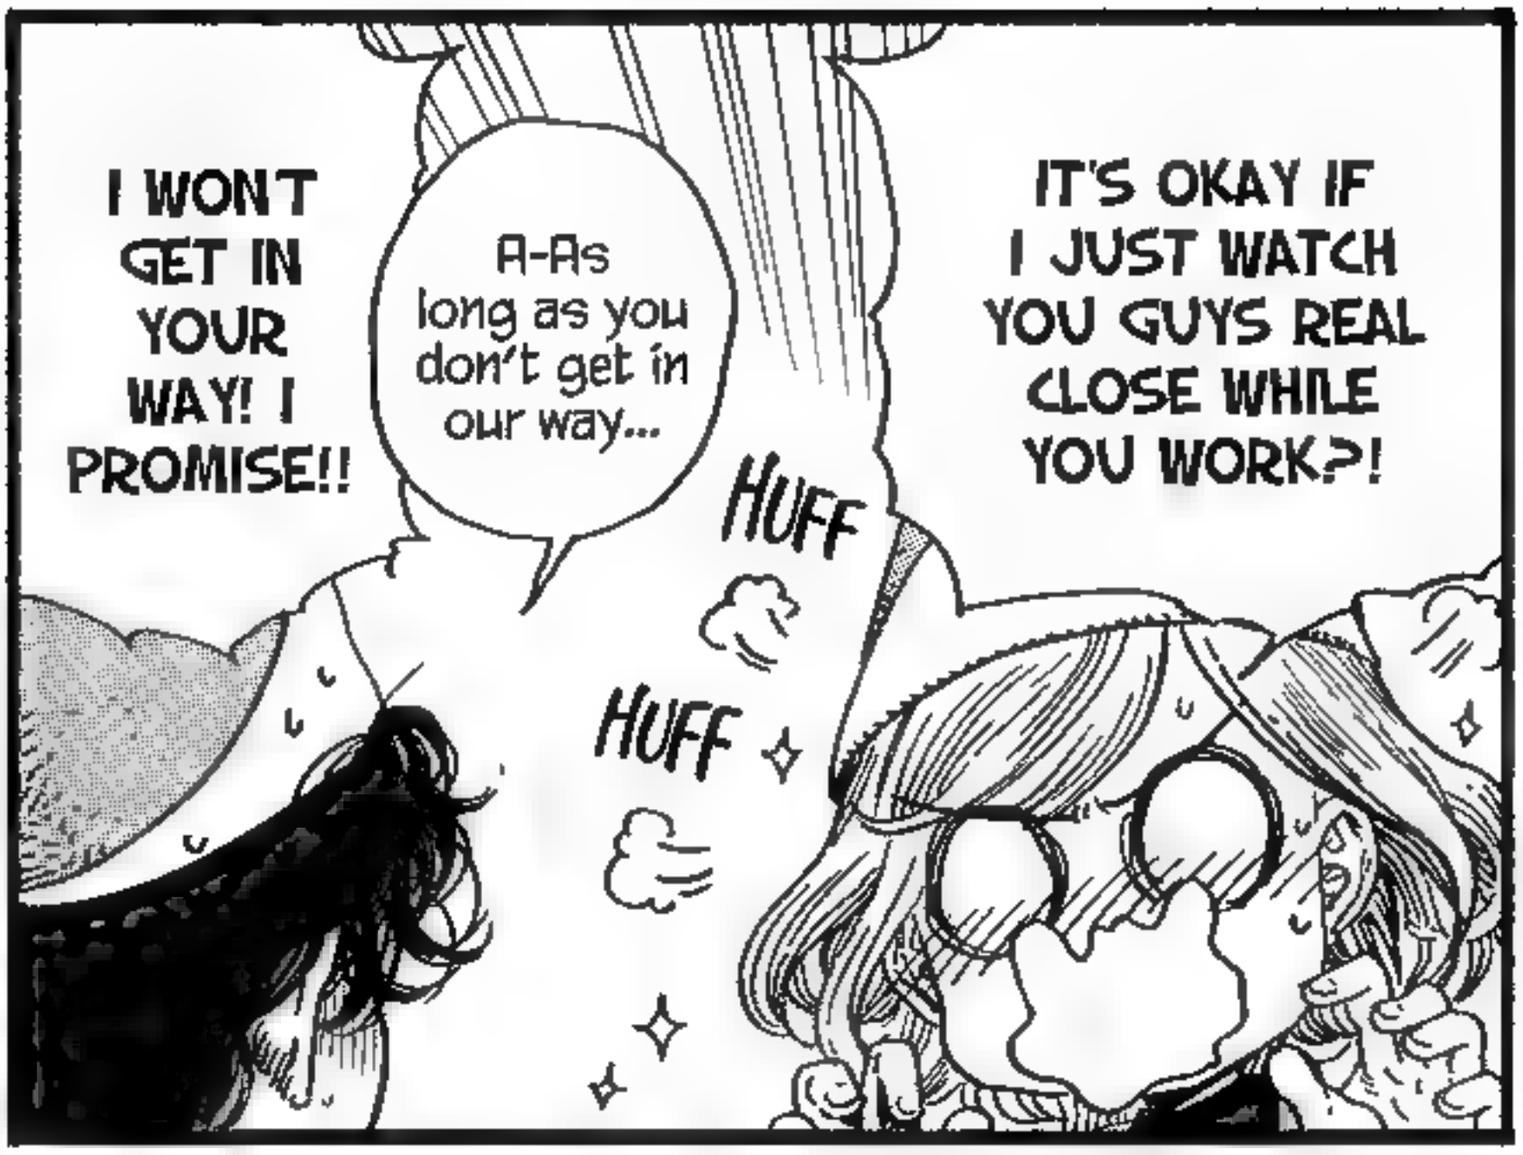
We're already using your strategy. That, rather than magic, is where your strength lies right now.

So just leave the rest to us, okay?

So... so then...

Just stay back, like I told you.

What is wrong with that girl?
VICTORY
Thank god!



I WON'T GET IN YOUR WAY! I PROMISE!!
A-As long as you don't get in our way...
HUFF
HUFF
IT'S OKAY IF I JUST WATCH YOU GUYS REAL CLOSE WHILE YOU WORK?!

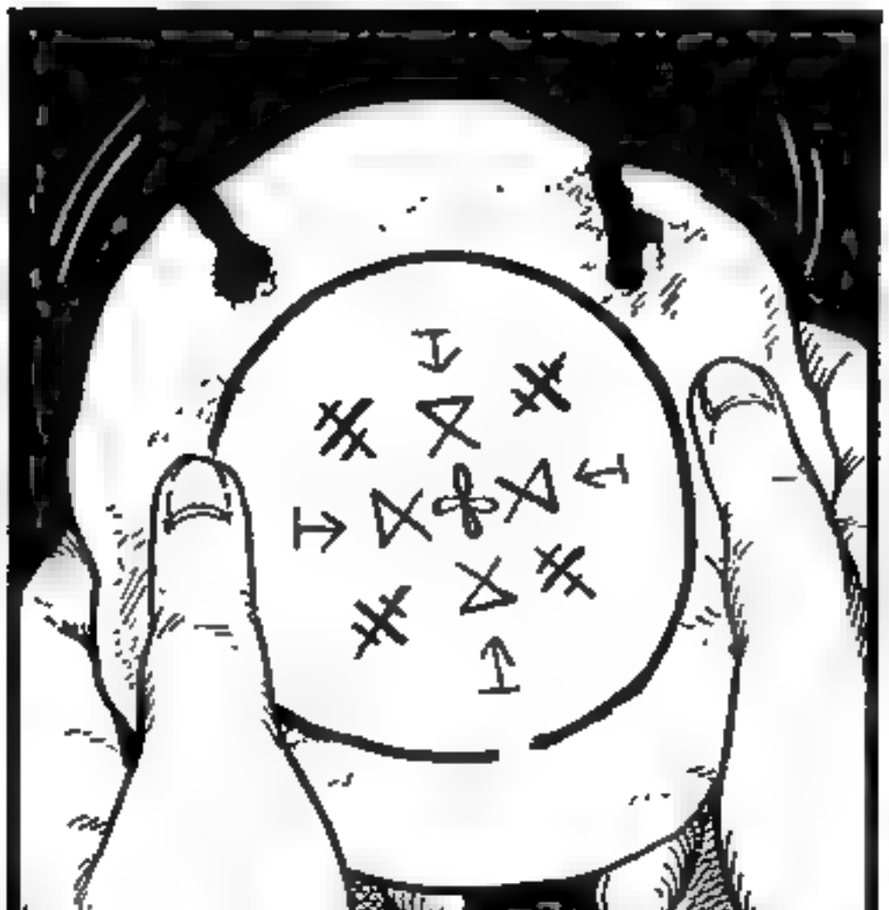
They're so confident.
Amazing...

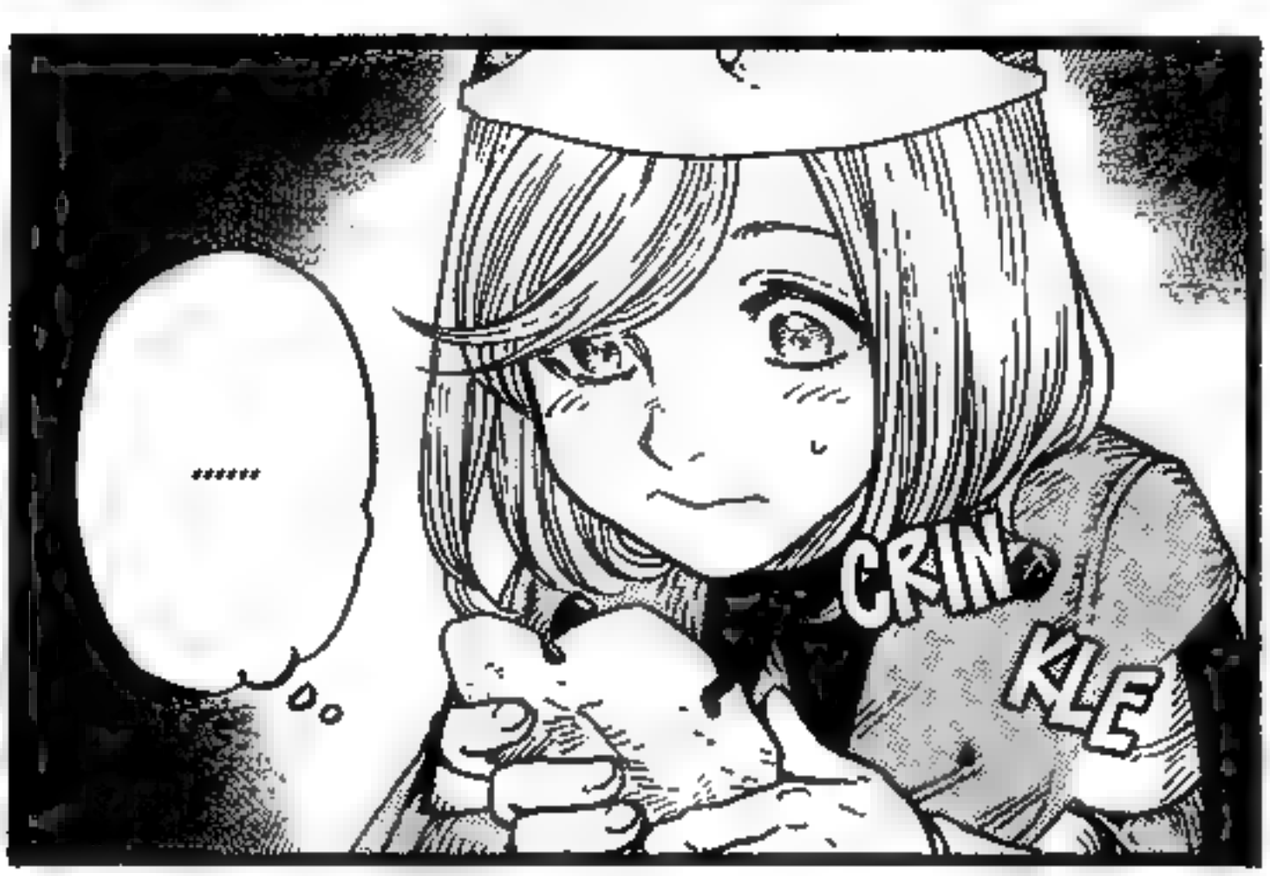
They draw so smoothly and steadily...

while it feels like I'm under a spell that makes my paper appear completely blank.

It's almost like they can see where and what they're supposed to draw,

This is their true strength!





She draws a circle in the air a bunch of times

then puts the pen down right in front of her hand and starts drawing there.

OOH...

SPIN

SPIN

Sh F

Oh, it's not only Agete...

Tetia and Riche do the same thing?

I'll give it a try...

Like this!

Or maybe...

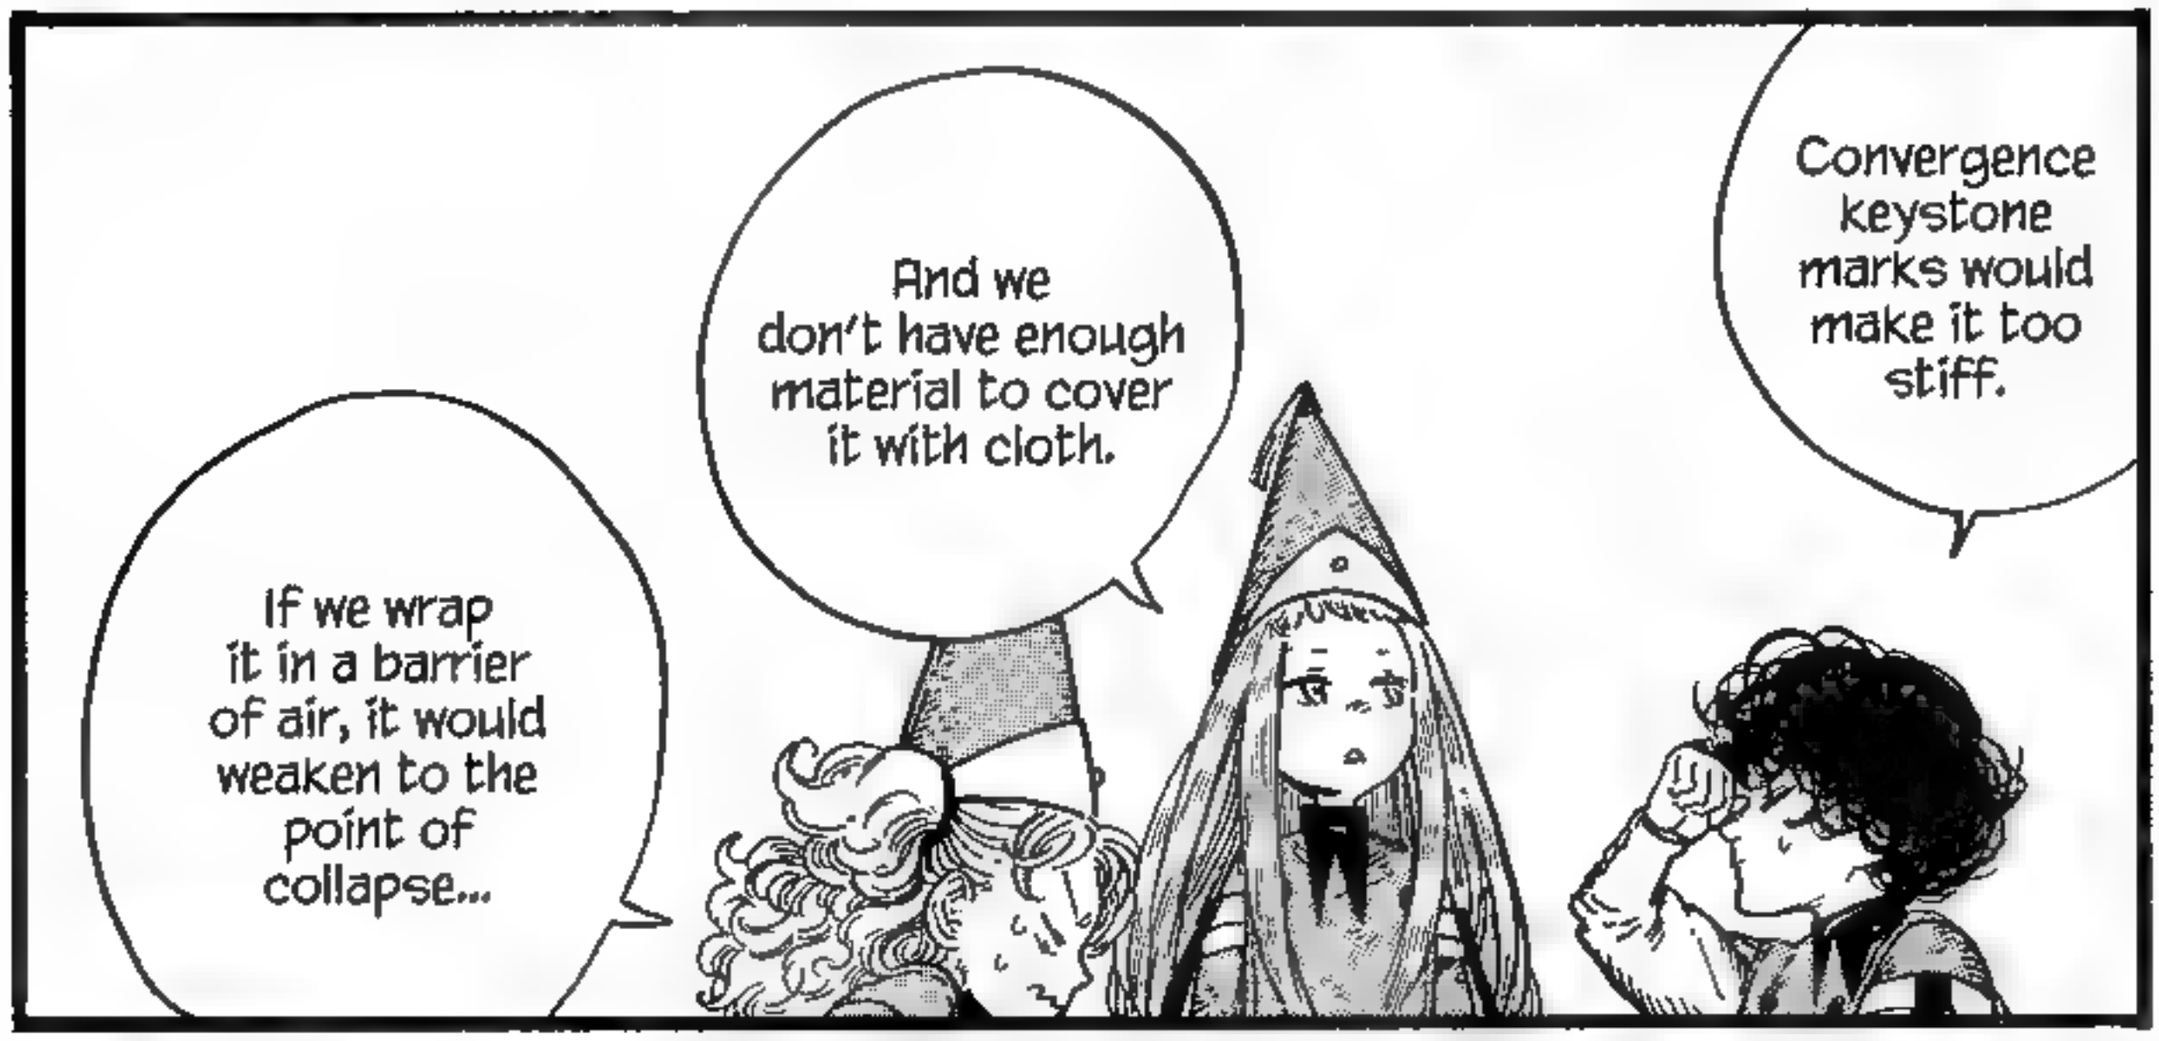
Like this!

I never paid attention to where I started

or the end shape of what I drew.

How was I doing it?

.....

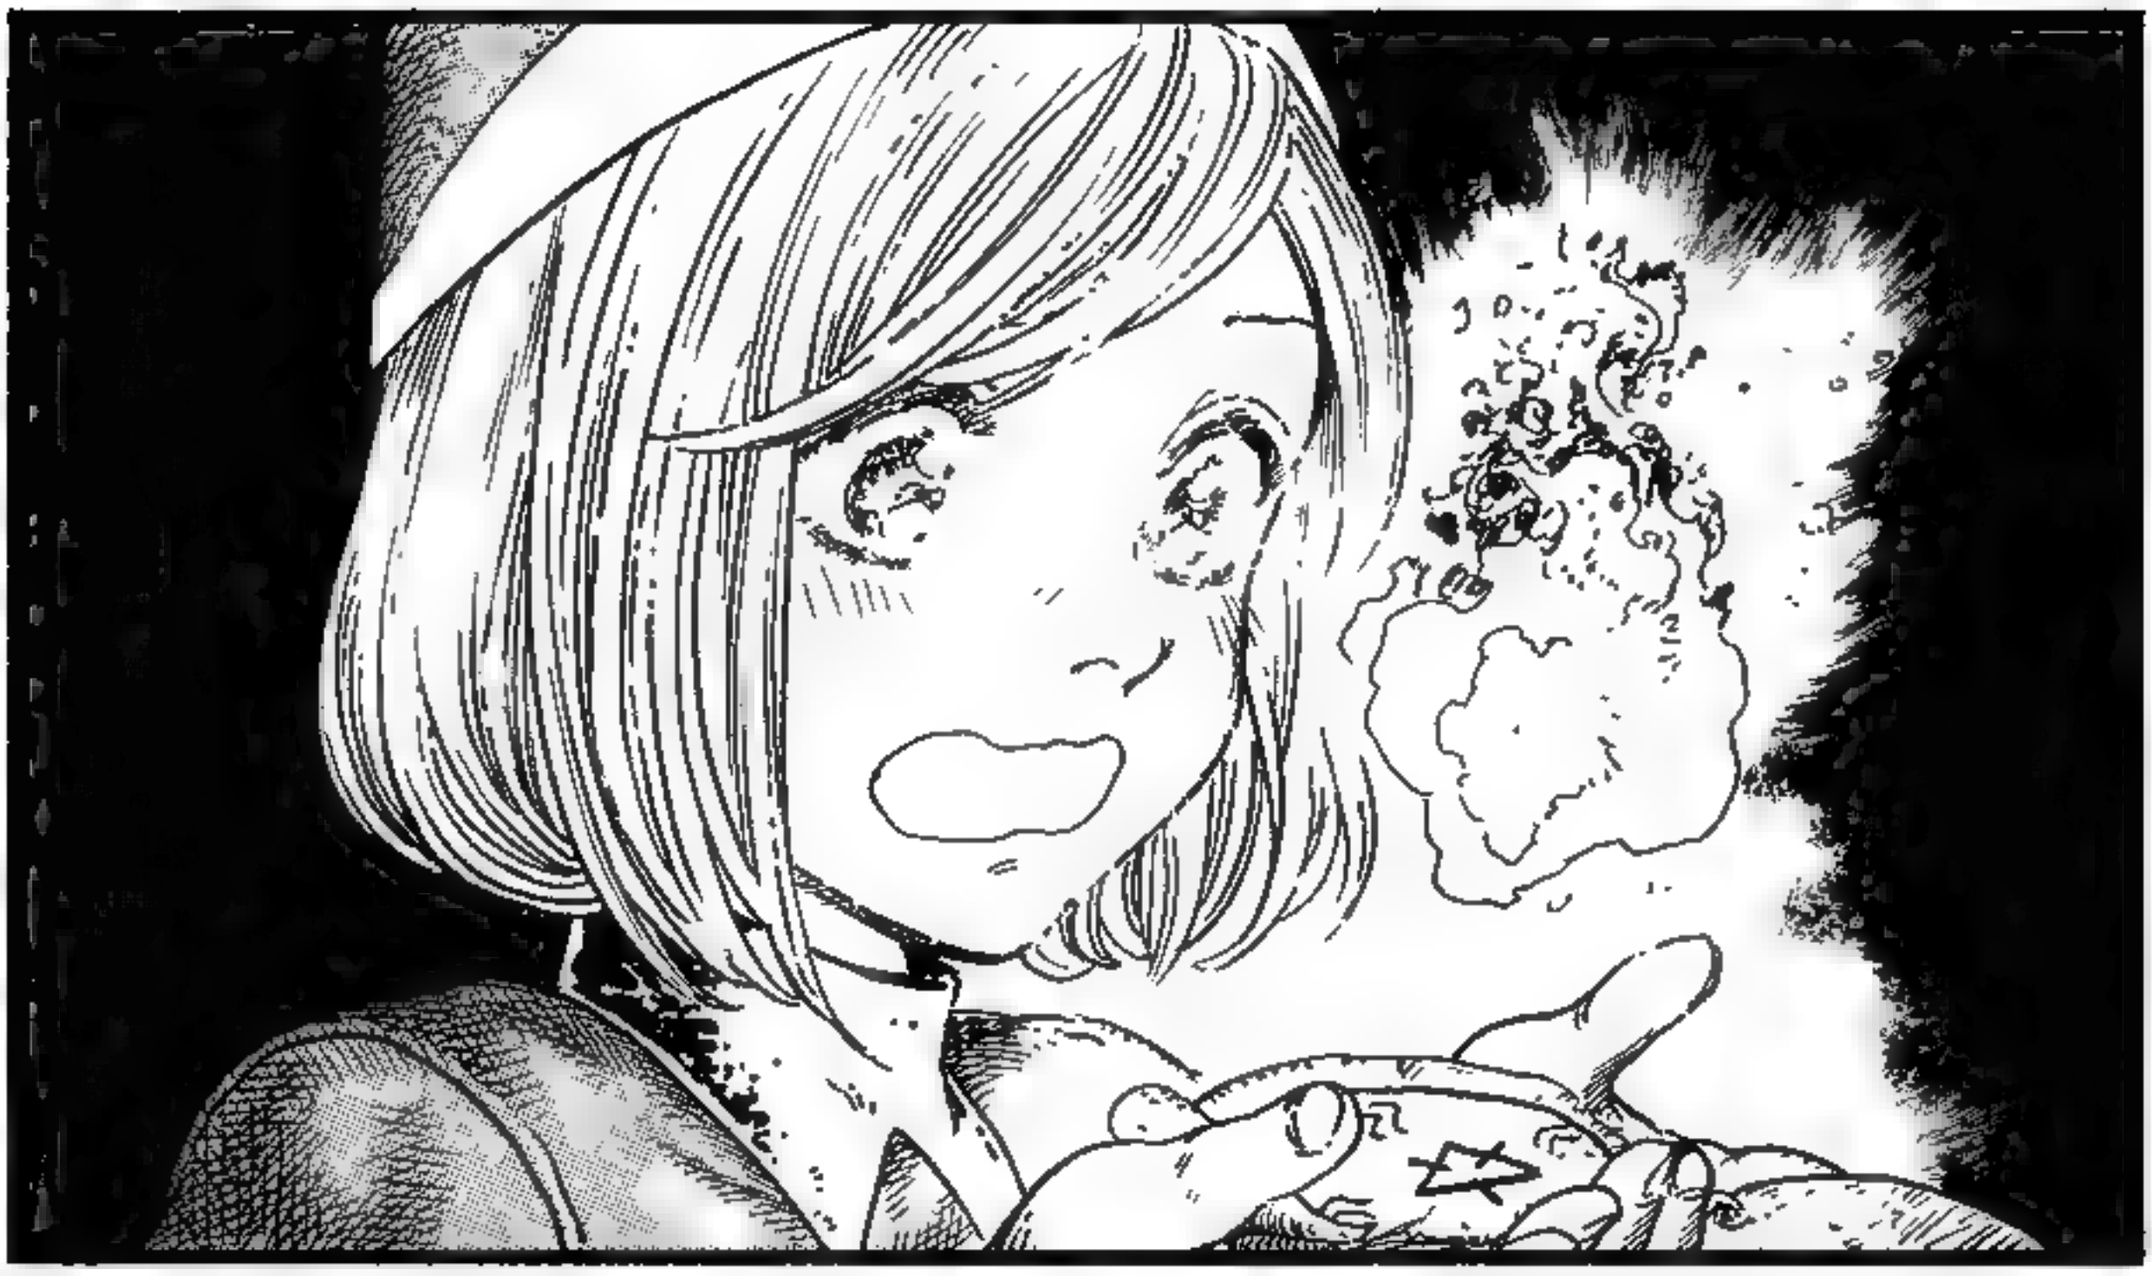


If we wrap it in a barrier of air, it would weaken to the point of collapse...
And we don't have enough material to cover it with cloth.
Convergence keystone marks would make it too stiff.

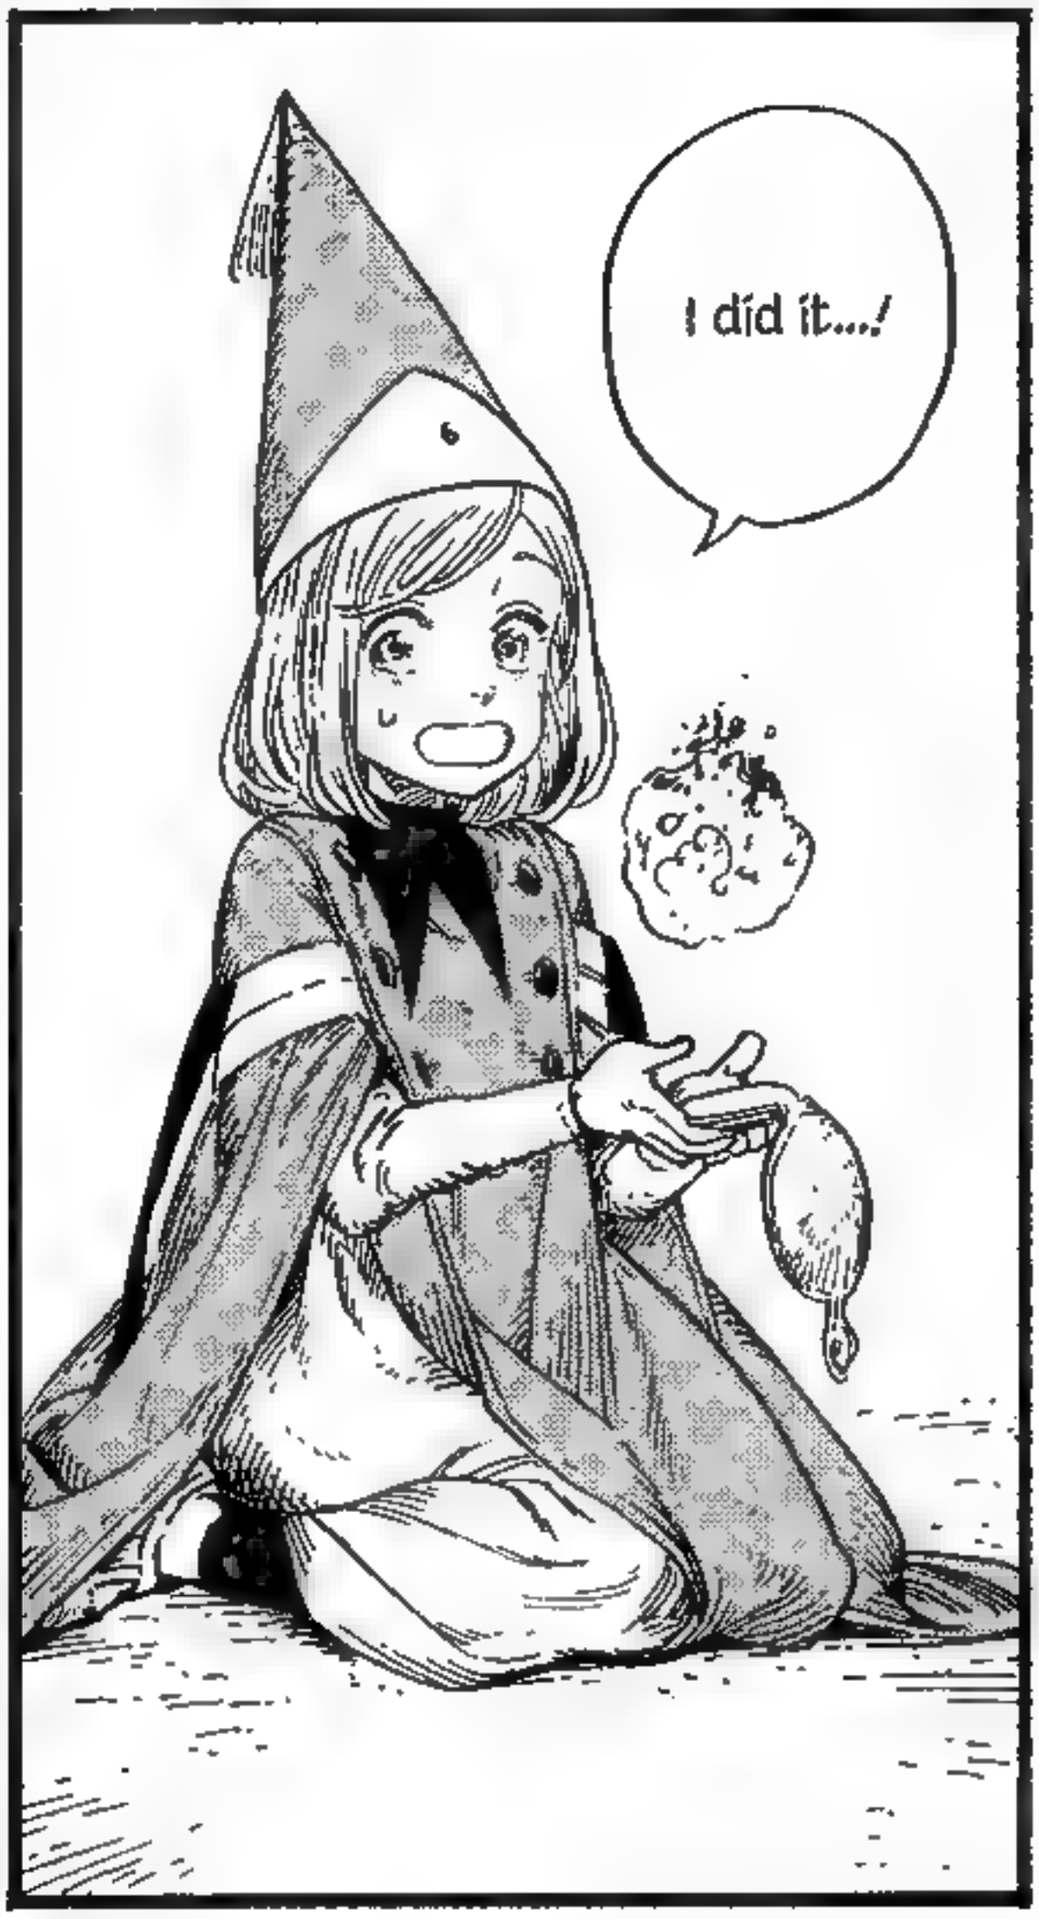
There ought to be something.
Something that would be perfect...
oo

BOUF
!

Yeahhh... I got nothing!
None of these ideas are cutting it.
I wish I had studied more!
HMMMooo



What use is a fireball right now?



I did it...!

BEFORE IT'D FALL AND BURN OUT RIGHT AWAY! WHEN'D YOU GET SO GOOD AT IT?!
THE FLAME IS SO STEADY!
WOW

I started practicing after watching everybody draw just now!

And I did it over and over again...

OVER AND OVER AGAIN! THAT'S IT!

.....

Wonder-ful job, Coco!

Anybody can do it if they practice over and over again that much...

.....

THE DRAGON MOVED!

SHF...

THUMP
THUMP
THUMP
.....
SQUEEZE
SQUEEZE
SQUEEZE
PUFF.
PUFF.
Using this...
then all I have to do is wrap it in magic that will loop back to its initial form and keep repeating!
If I want to keep the magic from breaking
Wall-breaker magic
Billowing Collection Magic
Repetition Keystone
AND I SHALL NAME IT...
GRIP!
retaining its pleasant fluffy feeling the whole while.
the cloud will return to its original shape even under the dragon's massive weight,

THE DRAGON-STUPEFYING CUSHION!

FLUFF...

Nice... DRAGOON

.....

THAT'S EVEN COOLER!

AGREAT!

Absolutely not. It's called "The Dragon's Bed of Sand".

SIGH...

Now's our chance to sneak by the dragon!

Tetia?

Has something been bothering you?

The dragon seems awfully happy.

I DIDN'T KNOW IT MADE YOU FEEL SO WARM INSIDE!

I think this the first time I've ever made somebody happy with my magic.

This is the glyph...

A cloud of sand is a lot like a regular cloud!

It's all good!

Even though I feel like it's not really a cloud anymore!

If I think about it...

We're here!

Come on, you guys!

PUFF

HUFF

I wonder if the Professor would know...

I've never seen anything like it.

What kinda glyph is this?

There's no sign of them...

Have they already moved on?

TMP TMP

They're here?

NBEE!

It looks like the flag-stones on this road were ripped off by some-thing.

Huh?

!

GASP

This is...

Since the brushbug is attracted to the smell of magic ink, then this must be...!

SNIFF

SNIFF

SNIFF

!!!

WHOOO

LOOK UP!

YOU CAN SEE THE SKY!

WOOSH

WO—AAH!!

'CUZ YOU SAID THE MAGIC MIGHT BE SEALING OFF THIS SPACE!

WHY DID YOU ERASE THE GLYPH?!

GUYS!

Maybe we can get out through there...

EEK!

WH

AA

...?

!

Oh no!

I'm not wearing my soar-boots!

OH...

FWSH...

Hold on tight!

The dragon is...

PSH

PROF-ESSOR!

ASH
AAA

You're safe now.

WHOOOSH

Where's Coco?

UWAAAH! PROF!

How did you find us, Professor?

Is every-one all right?

This space suddenly opened up while I was searching for you all.

Now, Coco.

for this seed I planted to sprout.

I've been waiting a very long time

Did it help you grow?

How did you like the little "challenge" I prepared for you?

Yes.

And when the time comes, you'll...

I'm looking forward to this.

Let me teach you everything Qifrey won't.

Let's start by giving this gift to you!

Oh, yes!

COCO!

...-CO

COCO

Guys...

Professor Qifrey...?

I'm so glad we found you.

You were laying unconscious on the stairs.

Stairs...?

This is... Karoon?

WHAT DID THAT BRIMHAT DO TO YOU?!

I'M FINE! WOAH

JUST A LITTLE DIZZY, IS ALL.

WAS YOUR MEMORY ERASED?!

WHAT DO YOU REM-EMBER?

GASP

Was your memory-?

I'm so sorry, Professor.

Everyone.

It's all my fault you got dragged into this mess!

I remember everything clearly.

The masked witch...

the dragon and...

Tetia told me everything.

FLINCH

.....

She said what you did saved everyone.

Ideas are just as important for magic as how you handle a pen.

So keep on stretching your wings bit by bit!

Yes. Fortunately

I have a request...

Oho.

You found them? Good.

Mr. Nornoa!

There's a piece of a magic glyph drawn on the back of this flagstone.

I'd like you to find out what else was mixed into its magic ink.

Also...

Please.
Don't tell
anyone.

!!

Please don't
mention what
happened here
today to
the Council
of Magic
Security.

It's our
duty to
report any
use of
forbidden
magic...

B-but...

.....

Just what
is happening
here...?

STARTLE..

Or

what is
going to
happen?
